Lely Juno

Automatic Feed Pusher

farming innovators

60: Radio Spot, Lely Juno automatic feed pusher

The new milestone in feed pushing is here! Lely North America has introduced the updated Lely Juno automatic feed pusher.

This third-generation Lely Juno is easier to use in any barn. The Juno continues to push feed frequently and will stimulate a higher feed intake, but now with less energy. Equipped with ultrasound technology and the option of a smart skirt-lifter to minimize wear and tear, this robot can climb up to a 15 percent grade. It also has the ability to follow all types of feed fences and push feed left and right – creating more versatile route options.

Smart technology guarantees there is always fresh feed for each cow.
